

# TOUR & TRAVELS WEBSITE DEVELOPMENT PROPOSAL

*Custom Development – HTML / React JS*

## 1. Project Overview

We propose to design and develop a professional Tour & Travels Website using **modern web technologies (HTML5 / React JS)**. The website will provide a fast, scalable, and user-friendly platform enabling customers to explore services, view vehicles, and submit booking requests seamlessly.

## 2. Development Approach

The website will be fully custom-built to ensure performance, flexibility, and scalability.

Frontend Technologies:

- HTML5, CSS3
- React JS
- Responsive & Modern UI
- SEO Friendly Structure

Backend (Optional):

- Laravel API
- Booking Management System
- Admin Dashboard

Integrations:

- WhatsApp Integration

- Razorpay Payment Gateway
- Google Maps Integration

### 3. Website Pages

#### **Home Page:**

- Hero section with booking form
- Service highlights
- Fleet preview
- Testimonials
- Call & WhatsApp buttons

#### **Services Page**

- Local Cab Service
- Outstation Travel
- Airport Transfers
- Tour Packages
- Corporate Rentals

#### **Pricing Page**

- Per KM pricing
- Fixed route packages
- Additional charges

#### **Fleet Page:**

- Vehicle listings with details

#### **Booking System**

- Inquiry booking form
- WhatsApp booking
- Optional online payment system

### **Contact Page**

- Click-to-call feature
- WhatsApp button
- Google Maps location
- Inquiry form

### **Testimonials**

Customer reviews section.

### **Gallery**

Trip and vehicle images gallery.

## **4. Key Features**

- Fully Responsive Design
- High Performance & Fast Loading
- Custom UI/UX Design
- WhatsApp Integration
- One Click Calling Feature
- SEO Optimized Structure
- Google Maps Integration
- Custom Admin Panel

## **5. Optional Advanced Modules**

- Distance Fare Calculator
- Live Vehicle Availability
- Online Payment System
- Offers & Discount Management
- Booking Management Dashboard

## 6. Design Strategy

The design will follow a modern travel industry theme focusing on user experience, easy navigation, professional branding, and mobile-first usability.

## 7. SEO Strategy

Target Locations: Indore, Ujjain, Omkareshwar

Target Keywords: Taxi in Indore, Cab Service Indore, Indore to Ujjain Cab, Car Rental Indore

Includes technical SEO setup, speed optimization, and mobile SEO readiness.

## 8. Project Timeline

- UI Design – 3 Days
- Frontend Development – 6 Days
- Backend Integration – 4 Days
- Testing & Optimization – 2 Days
- Deployment – 1 Day

Total Duration: 15–18 Working Days

## 9. Cost Estimate

Basic Website (HTML / React): ₹35,000 – ₹45,000

## 10. Deliverables

- Fully Custom Developed Website
- Mobile Optimized Version
- Admin Panel Access
- Source Code Ownership
- SEO Setup
- Deployment Support

## **11. Payment Terms**

- 50% Advance
- 30% After Development Stage
- 20% Before Final Delivery

## **12. Support & Maintenance**

- 15 Days Free Technical Support after launch
- Optional Annual Maintenance Available
